Introduction

Introduction

Jupyter Book has been rebuild from ground up using the MyST engine [Jupyter2025]. This allows to export content in multiple output formats including HTML, PDF and docx. In this paper we present an overview of the possibilities and demonstrate its working.

Background

Some background information about Jupyter Book and its features, like exporting to multiple formats as indicated in [fig-diagram].

Content that should appear everywhere

This text should appear in all formats.

Figure: This picture should appear in all formats

Beamer-specific Content

Figure: This picture should appear only in beamer

A paragraph that should appear in all the website, PDF and beamer presentation.

Another paragraph that should appear only in the beamer presentation.

Final Beamer Elements

Figure: This is a picture that would appear only in the beamer presentation.
